## A THOUSAND

Strong will be the Republican Majority in Belmont.

SUCCESS FOR THE WHOLE TICKET

Is Predicted by the Intelligence—The Local Ticket is Made of Good Men and True who are Entitled to the Confidence of the Voters who Believe in Prosperity and its Continuance—The Strong Legislative Ticket.

The Republicans of Belmont county were never in finer fettle since victory first perched upon their banner. Every misfortune of purely local character has been magnified and distorted and used to aid the Popocrats in their campaign that feeds upon the misfortunes of those not enjoying the fruits of the prosperity that followed the splendid victory of last fall, when President McKinley was elected, confidence restored and new life and vigor given to the commercial and industrial world. But the great multitude of people are rejoicing in the better conditions that prevail.

With the exception of a single concern in the Ohio valley, the wheels of industry are in full motion with all of the old men and some new ones busily employed. The unfortunate misunderstanding at the Bellair mill is the single exception in that town, where all of the former employees are not fully employed, and every right thinking man in that community deplores the fact that a settlement has not been reached there. But everywhere else, in all the other industries, they are working full, are increasing their capacity or building new factories to keep pace with the progress being made under the influence of the greater confidence and better conditions.

These are the conditions that give Republicans hope and vigor. They want to see the better times widened and extended until every community and every home feels and realizes that the policies of President McKinley and the Republican party are in the interest of all the American people. This is why the campaign this fall is but a sequence to that of last year. Victory now will but emphasize the good results that followed that of last year, and every loyal Republican is awake to the importance of a full vote and a decisive majority.

There may be a few misguided men along the river front, led by men with personal grievances, but there will not be many of these in Belmont county. The party over there was never more active and earnest and the independent Democrats, who contributed to the success of last year's victory, are as loyal and true to their principles this fall as they were then. They have no personal fight to make. The campaign is based upon the broader ground of American policies for America, no disturbance of values, and greater prosperity and more work for all the people.

To emphasize this broad American policy the Republicans of loyal old Belmont county made a local ticket that has not been attacked in any quarter, even by the desperate Popocrats. They seek only to blind a few men by appeals to prejudice and passion. The Republican local ticket is above reproach in every respect. The candidates for representatives, Messrs. Chas. J. Howard and E. B. Armstrong, are men of character and intelligence who will use every effort to support President McKinley by voting for a United States senator who will stand by the President in all of his efforts in behalf of all the people. They are capable men to look after local interests, too, the first being a lawyer of force and standing at the bar, the other a representative farmer whose education and knowledge fit him for any calling. Both will be elected, but upon these a special fire has been made, and yet they stand committed to every American policy promulgated by the President. The loyal voters of that county can be relied upon to give them from 1,000 to 1,500.

The balance of the local ticket is strong in every part. W. C. Bergendahl, for treasurer, is the best of any candidate for that office in recent years, an honorable, conscientious and capable man. Bradley Smith, for commissioner, is just the character of man who has been sought for for that important office for years, to guard the best interests of that county. John A. Bond, for surveyor, has been a loyal Republican all his life, and so is his father before him, and he has filled the office with care and satisfaction for one term. The nominee for coroner this year is a gentleman of character and standing in the person of Dr. Beetham. Never was a better local ticket made. It deserves the vote of every man calling himself a Republican. It appeals to the good judgment of all classes of voters and its election is assured from top to bottom. The majority will not be surprising if it reaches two thousand. All that is necessary is for every loyal Republican and sound money man to do his whole duty. The greater the victory the more potent the influence for all that is good for the country, the state, the county and the "river front." The fires in the furnaces, the mills and the factories, the activity at the mines, the busy hum of industry and the employment with last fall appeal to the voters to make President McKinley feel that his policy is right and that what the people want is more prosperity and less politics of the kind that feeds upon discontent and misfortune.

When you hear from old Belmont tomorrow it will do you good.

### HOUSES THREATENED

At Martin's Ferry by Forest Fires Last Night—Sweep of the Flames Stopped by Hard Work.

Martin's Ferry was threatened with fire last night through the near approach of the forest fire, which began on the north side of the Lewis farm, north of Martin's Ferry, about 6 o'clock in the evening. The flames spread across, finally reaching the Henry Holling place, near the Riverview cemetery, and the imminent danger to the cemetery and the houses on the outskirts of the town resulted in the fire department placing itself in readiness.

Willing hands fought the flames, preventing further damage, but it took plenty of work, and after hours of constant effort the fire was headed off and began its sweep westward. All the fire hose was moved to the north end of Martin's Ferry, but just before midnight danger to property ceased to exist. The fire was greatly in evidence in Clark's hollow, and it swallowed up fences, trees, shrubbery and corn in rapid order.

### Another Knabe's Triumph.

From Baltimore Sun, June 23, 1897: MESSRS. KNABE'S BID ACCEPTABLE.—The committee appointed by the board of education of New York city to receive bids for pianos to be used in the public schools has recommended the purchase of eight Knabe uprights. The order was sought with unusual avidity on this occasion, there being no less than twenty competing firms.

The selection of the Knabe is not only a tribute to the worthiness of that piano, but is additionally significant because the present order is but the beginning of a series of orders for public schools—orders that will come under the power of the board of education as soon as Greater New York becomes a substantial fact.

Of 102 pianos now in use in Brooklyn public schools 125 are Knabe pianos.

IN regard to the merits of Dr. Sloan's valuable Remedies, too much cannot be said. Dr. Earl S.
